

HAILSHAM HOUSE
GENERIC CARE PLANS

The following care plans apply to all residents and must be followed at all times.

N.B. To avoid repetition, these “Activities of Daily Living” must not be entered into the residents’ individual care plans in the Residata system.

ACTIVITY OF DAILY LIVING	CARE PLAN “PRESCRIPTIONS”
<p style="text-align: center;">Body Temperature</p>	<ul style="list-style-type: none"> • Ensure the temperature in the home is between 23-25°C • Record the temperature in the main lounges daily. • Monitor the residents’ temperature throughout the day and change the following accordingly: <ul style="list-style-type: none"> ○ Open/close windows ○ Adjust heating ○ Add/remove bedcovers ○ Add/remove clothing • For residents who are unable to communicate, use touch to face and hands to check body temperature.
<p style="text-align: center;">Safe Environment</p>	<ul style="list-style-type: none"> • When a resident is at risk of falling out of bed, use an ultra-low bed and a crash mat where possible. • Only use bedrails when a risk assessment has been conducted and they are deemed necessary. • Ensure all spillages/wet floors are followed up immediately and Wet Hazard sign in place. • Ensure that residents are keep away from any trip hazards and slippery floor areas
